The Great Irish Nationalist Leader Freely Ex-presses His Views to T. P. O'Connor, M. P., Special Commissioner of The World.

THE FIRST AUTHORIZED INTERVIEW WITH MR. PARNELL IN YEARS,

NEW YORK, SATURDAY, JANUARY 5, 1889. PRICE ONE CENT.

### PRICE ONE CENT.

## **WARRANTS OUT**

## **English Dupes Want to** Arrest the Sugar Swindlers.

Mrs. Friend Says the Company Has Represented Too Much.

### She Denies Her Contract Calls for Sugar Refined from the Cane.

"State's Evidence" Jerry Gets Out of the Way.

Ten Shares of Electric Sugar Stock Sold To-Day.

Mr. Robertson Is Not Financially Ruined Through the Company.

[SPECIAL CABLE TO THE EVENING WORLD.] LIVERPOOL, Jan. 5. - Warrants have been issued for the arrest of Mrs. Friend and her stepfather, W. E. Howard.

The price of the shares has fallen from £117 to 30 shillings. When Howard was here some months ago

he lived in great style at the Adelphi Hotel. He was a glib talker and a man of very tak ing address. The general impression was that he was

sort of American Monte Cristo. He adopted similar tactics in London. His electric shares sold in both places like

the proverbial hot cakes.

The English dupes swallowed his fairy tales with childlike faith.

Their indignation now knows no bounds. Hundreds of brokers in Capel court who invested their money in the company are try-ing to get rid of their white elephant at al-

most any price.

The great swindle is still the uppermost

There is but one topic in Wall street, the Stock Exchange and the sugar market to-day. It is the revelations in the affairs of the Electric Sugar - Refining Company which has been operating in the mill of the old Atlantic Flour Milling Company in Brooklyn by which stock that had been booming along at \$450 a share has dropped to something less than nothing.

EXTERIOR OF THE "ELECTRIC" REFINERY. Which is about all the stockholders ever saw, ) It is the general belief that all has not ye

Are there others than Mrs. Friend, W. O. Howard and his wife, her father and mother and Gus and George Halstead responsible for the swindle? is the question asked on all

sides to-day.

Ten years ago "Prof." Henry Friend, claiming to be a New York electrician, appeared in Liverpool asking for financial aid for the development of a process for refining sugar by electricity which he had discovered.

He was unsuccessful, but in 1884 J. U. Robertson and William H. Cotterill, Englishmen, and a Mr. Woodworth, of this city, organized a joint stock company with the title "Electric Sugar-Refining Company" and opened offices in this city. sides to-day.

offices in this city.

The capital stock was to be \$1,000,000 in Company to

10,000 shares at \$100 each, the Couse the invention of Prof. Friend. For the Invention of Prof. Frence,
For this Friend received 6,000 shares and
Woodworth was elected President and
Robertson Secretary and Treasurer at salaries
of \$30 a week each. Woodworth died and
Cotterill was selected as President.

PRIEND KEPT HIS SECRET. But Friend retained the secret of his invention on the ground that it was not yet out perfected. He was to reveal it when the stock was all subscribed.

The building of the old Atlantic Flour Milling Company, in Brooklyn, was leased and operations were begun in the mill. Friend had for his assistants his wife, her

stepfather. W. O. Howard; Mrs. Howard, Gus and George Halstead.

ALLEGED TO BE RELATIVES. To maintain secrecy, burglar-proof labora-tories were built on the two upper floors, and here the work was done, the "company" and people who were investigat-ing the affair as an investment only seeing the results of the work in beautiful white sugar, which was delivered to them on a lower floor through chutes connecting with the laboratory.

sugar, which was delivered to them on a lower floor through chutes connecting with the laboratory.

Jerry Flanagan, a stalwart young Irishman, was installed as watchman, and no one but the electrical experts were admitted.

Friend died March 10 last, and his widow claimed to have received his secret from him and continued the work till a week ago, when she and her assistants all disappeared.

They went to their former home in Milan, Mich., and, according to Mr. Robertson, Measrs. Cotterill and Robertson opened negotiations with them, offering, \$75,000 in cold cash for the secret. But there was a hitch, and then Mrs. Cotterill and Robertson say that they repaired to the mill and forced their way into the laboratories.

There they found that sacks of raw sugar which had been sent up to the secret room were there still unopened, and that boxes and barrels, supposed to have contained machinery secretly made, for which the company had paid \$180,000, really contained refined sugar in the loaf.

Instead of refining the raw sugar by this electric process the electricians had only run loaf sugar through a granulator and thence down through the chutes to their gullable victims.

EVERYTHING SEEMED LOVELY. A month ago Messrs. Willett & Hamlen, brokers at 102 Wall street, sent a representative over to the mill, and in their weekly sugar statement of Dec. 13 say that the editor had been present at severat trials of the electric sugar-refining process and that at one of these 23,753 pounds of raw sugar were used in the secret room, analyzing 94.70 cane, 1.14 grape, 1.84 water, 43 ash, 1.89 organic substance.

This was delivered in half bags inside of

organic substance.

This was delivered in half bags inside of ten minutes, two stories below, and seventy-nine barrels were filled, weighing 22,341

pounds net.

A month ago Henry P. Thompson, a British patent agent, came to New York in the interest of the English stockholders in the Electric Sugar Refining Company, ostensibly to arrange for patenting the process of Prof. Friend throughout the world, but incidentally to make a thorough investigation of the affairs of the Company.

MR. THOMPSON RETURNS TO ENGLAND. He returned to England on the Umbriathis morning, and will meet and pass in midocean the Birmingham stockholders, who are on their way to New York to look into the

are on their way to New 1012 to 1012 matter.

President Cotterill started for Michigan yesterday, and Treasurer Robertson says his errand is to obtain the arrest and return of Mrs. Friend, Howard and wife, and the Halsteads to New York, where they will be prosecuted both civilly and criminally, Jerry Flanagan having agreed to turn State's evidence.

ENGLISHMEN THE VICTIMS. Mr. Robertson claims that there has been

Mr. Robertson claims that there has been but little stock sold to Americans, the victims being mainly Englishmen.

Mr. Thompson is a middle-aged Englishman with a full beard of brown and curling black hair. He talks fluently about the affairs of the Company, but reserves some information for a public statement which he says he is going to write.

'My business in England was that of shipowner at Liverpool," he said this morning. "My father and my grandfather were shipowners. I wish to God I had stuck to it, a business I knew something about! I came to New York in 1884 to arrange with the Mutual Reserve Fund Life Insurance Association for transacting their business in England.

"I was introduced to Mr. Woodworth by a Mr. B. G. Bloss, whose whereabouts I now know nothing of. Mr. Woodworth broached the scheme of refining sugar by electricity. I obtained from a Philadelphia friend a good report of Woodworth, and went into it with him.

"We organized the Company and entered

him. "We organized the Company and entered

COTTERILL SUCCEEDS WOODWORTH. Mr. Cotterili succeeded Mr. Woodworth s President. I was named for Secretary and reasurer, and the directors were Mrs. riend, Mr. Howard, Mr. Cotterill, myself nd Robert E. Sniffin, the architect of Tam-

many Hall.
"Mr. Cotterell received \$30 a week as President, I got \$30 as Treasurer an Sniffin \$30 a week as Superintendent.

FUNNY ABOUT MRS. FRIEND'S STOCK, ISN'T IT

FUNNY ABOUT MIS. FRIEND'S STOCK, ISN'T IT?

"About \$350,000 worth of stock has been sold. Of this 7,207 shares are held in America, including Canada. This includes 499 shares which I held as Treasurer, a few of which have been sold.

"There are sixty-five American shareholders, but I will name only Mrs. Friend, who holds 5,250 shares, having paid into the treasury 750 shares, Mr, Cotterill and myself, who own 1,160 shares, for which we paid nothing, and Lawson N. Fuller, the amount of whose interest I decline to state.

"There are 526 English shareholders and they have 2,793 shares and a few more which

"There are 526 English shareholders and they have 2,793 shares and a few more which may have been transferred without our knowledge, for the stock has been speculated with largely in New York, Liverpool and

Birmingham.

'The largest amount of stock is owned in Liverpool by bankers, brokers and heavy merchants, but the stockholders in Birmingham are in the main poor people, who can ill afford to lose their savings.

MB. BOBERTSON'S VISIT TO ENGLAND. "I took samples of the sugar purporting to have been electrically refined to England, and it was everywhere declared to be the finest sugar the dealers had ever seen,

\$100 SHARES SOLD FOR \$300. "I sold to Thomas O. Easton, of McFee &

Son, Liverpool, a practical refiner, ten share

HASN'T LOST ALL HOPE? "The stock sold as high as \$450 a share, but Mrs. Friend has always steadfastly refused to sell a share of her stock, and this fact, the fact that the sugar found in solid blocks in the supposed machinery barrels is refined beyond any work ever done by the old processes, and the fact that grape sugar has been granulated by the Friends, and by them alone, makes one wonder whether, after all, the stock of our Company may not be made good if we secure the secret processes by which these results are produced. cesses by which these results are produced.

In reply to queries regarding the disposition of the \$350,000 received for stock, Mr.

Robertson said:
"I have told you that we paid \$180,000 through Friend and his wife for the construction of the wonderful machinery which they claimed to use, and about which they

were so secret that it must be taken into the building closely boxed and barrelled.

"We have invested \$45,000 in improvements on the mill building, under the direction of Mr. Sniffin, and for boilers, engines and hoists. WAS THIS MRS. FRIEND'S 6.250 SHARES?

'A sale of stock in Michigan was to have been consummated by the payment of \$75,000 this week, but it has not been paid.

WON'T TELL ABOUT WHAT IS LEFT. "I decline to state the disposal of the bal-ance now. I will make a written public

statement as soon as I can go through my

PRIEND A MAGNETIC MAN. "Friend was a magnetic man. He was born July 4, 1842, in this city. His tather was a Frenchman and his mother came from Wales. He was a short, thick man of dark complexion and dark side whiskers. Active,

complexion and dark side whiskers. Active, energetic, wire, he was a positive man. He was closely tested by seventy Englishmen in a Liverpool office and he convinced them all.

"Howard is fifty-two years old, 6 feet 1½ inches in height and affects a ministerial sir. He is a swindler from way back. Mrs. Howard is a blooming, bonny woman of thirty-three years. three years.

MIS. FRIEND WEIGHS 350 POUNDS Mis. Friend is a monster. She weighs 350 pounds and I could not circle her waist with my arms. She was addicted to drink.

"We have been wonderfully mystified. Two and a half years ago, when Howard was only Friend's subordinate, and had no chance to benefit from the fraud, he went before a notary public and swore that he assisted Friend, and that the refined sugar was produced from raw sugar by an electrical process.

HOWARD'S APPIDAVIT USED IN ENGLAND. "This affidavit was sent to me in England to show as a promoter, and it was claimed that 99 per cent, of the saccharine contents of raw sugar were retained in the process, which was complete in four hours, only it per cent, saccharine and the moisture and refuse being lost.

BOBERTSON INVESTED \$2,250 AT THE START. nonertson invested \$2,250 at the start.

"In the start I invested \$2,250 in the scheme. The Company has no liabilities which it cannot meet, and the losses to sharcholders cannot be determined till we ascertain how much value there may be to the secrets which Mrs. Friend certainly does possess.

"As you see, there are only about 300 to 400 shares sold to Americans, while 150 or more have been given away as bonus for the use of names with prestige."

MR. BOBERTSON NOT FINANCIALLY BUINED. Mr. Robertson has been pictured as a runed man by the combustion as a ruined man by the combustion of his sugar company, but according to his itemized statement he has invested but \$2,250, and has been drawing a salary of \$1,560 per annum for four years.

Men in the street say the whole story of the concern is fishy. The Havemeyers laugh at the whole matter. It was offered to them, but they investigated among elec-trical experts and decided that "Prof." Friend's process was a transparent fraud and didn't bite.

THE GRAPE SUGAR STORY DENIED. At the office of Matthessen & Wiechers the story that Friend had victimized their Chicago house by a scheme to deliver grape sugar to families was untrue. Their Chicago house manufactures corn-starch and corn-sugar, and never dealt with Friend.

Mr. Robertson, when asked, said no effort was being made to detain Jerry Flanagan, the

watchman whose testimony is necessary to the conviction of the electrical crew. THAT MICHIGAN \$75,000 AGAIN.

By the agreement Mrs. Friend was to receive \$75,000 whenever she was ready to expose her process to the Company in the presence of witnesses. Mr. Cotterill is alleged to have attempted to bring this contract to execution in Ann Arbor. Mich., this week. For this purpose \$35,000 was deposited in a Detroit bank and a guarantee of the balance, but all the answer Mrs. Friend's lawyers would make was: 'Would a process for granulating grape sugar he of a process for granulating grape sugar be of that value to you?"

NOT A PART OF THE \$350,000. This \$35,000 Mr. Robertson says is not a part of the ₹350,000 proceeds from the sale of shares, but he declines to say where it comes

The deal was not consummated, and m re The deal was not consummated, and in response to a despatch from Cotterill, Robert son says he burst into the laboratories, revealing the swindle as stated.

Yesterday Mr. Robertson cabled to Liverpool a singular despatch, winding up with an injunction to "give it all the publicity nossible."

The stock of the Electric Sugar Refining Company had been selling at £80, and dropped instantly to £12.

BUMORS DENIED.

An Evening World reporter called again later on Mr. Robertson and spoke to him of certain rumors that were flying around town. "Do me a lavor and deny these rumors, because the are not true," he said, emphatically. Why did you discharge Jerry this morn-

ing?" he was asked.
"I did not," he replied.
The reporter then informed him of what
Ford had said at the factory, whereupon he

SAYS HE HASN'T DISCHARGED JERRY. "I have put Mr. Ford in charge there, but Jerry is not discharged. In fact, we rely upon him as a witness in case of legal pro-ceedings." You were over there with young Mr. Cotterill, were you not?" inquired the re-

"Oh, yes: I met him there and we had a talk together with Jerry. The latter could not tell us much that was new, but he did give us a good point. He told where the factory was in New York where the Friends got their sugar refined.

"Where is it?" was asked.

MR. ROBERTSON MADE MONEY. Furthermore, Mr. Robertson mitted that while he had nearly thousand shares of the stock betweehim and Mr. Cotterill on hand no him and Mr. Cotterill on hand now, they are not losers on the whole as they dealt in the stock when it was selling well and made money then.

"Why, I sold ten shares of the stock to-day at \$10 each. I told the man they were worthless, but he took them all the same." ISN'T ERIEND DEAD ?

SOLD TEN SHARES TO-DAY.

It was rumored about Wall street to-day that Prof. Friend was not dead at all THE ALLEGED BEFINERY. The electric sugar refining factory is not numbered, but it is situated on Hamilton avenue right near the ferry. It is a six-story building and has a frontage of 100 feet on the

When an Evening World young man went to the place to-day, it was locked tight, and there was no sign of life about the place. A loud-sounding bell was pulled half a dozen times before any response came from within. Then two men, one tall and dark, the other short, fat and light-complexioned,

came to the door.

They opened it partly and the little man What do you want?"

"I am a reporter for THE EVENING WORLD and would like to inspect this building." BY ROBERTSON AND COTTERILL'S ORDERS.
"Well, you cannot do so. No one is allowed in here, by order of Messra. Robert-

on and Cotterill." returned the man on the to refine sugar at 80 cents a ton, or to sell out inside.
"Who are you?" the reporter then inquired, to which the little fellow answered

pleasantly:

"My name is Tom Ford. I was hired by Mr. Robertson to come here and guard these premises from this morning, and have strict orders to allow no one to enter here."

Where is Jerry Flanagan:" (the watchman and alleged accomplice of the alleged refiners) he was asked. The dark man then turned away uneasily,

while Ford said: "Oh, he has gone.
"Gone where?" JERRY IS OUT OF THE WAY. " I don't know. Mr. Robertson and young

Mr. Cotterill were here this morning and let him go. His wife and children are still here, but will nove out to-day," he concluded. A gentleman who saw Mr. Cotteril and Mr. Robertson this morning told the reporter that they were over there very early and looked to be pretty badly broken up.
"They were a lively crowd, too, and all good, hard drinkers. Friend was the boss in that respect, too. Liquor is led him."

A gentleman connected with the Atlantic Sugar Company nearby told the reporter several interesting anecdotes concerning the electric sugar refiners. MASTER MECHANIC SNIPPEN.

"I never believed in their scheme." he said; "but an old fellow named Sniffen, a builder, who drew the plans for Tammany Hall and other big buildings in New York, was the master mechanic employed there. His brother was a big gun in Tammany Hall before he died. Where do you suppose they obtained the

refined sugar with which they dec stockholders?" asked the reporter. SUGAR, NOT MACHINERY, IN THE BOXES. "I think now that they had a refinery in New York somewhere. From there they would ship it in big cases, iron-bound and

peculiarly constructed to represent cases of machinery, and in these they would ship the refined sugar here." he answered. TWO BARRELS FOR ONE. "That they were swindlers was only too palpable to some people," continued The Evening World's informant. "A friend of mine in New York sent them a barrel of raw material to be refined. They sent him back nearly two barrels refined. Of course he smelled a mice and had nothing more to do with them.

with them. \$1.000,900 FOR THE SECRET. \*\*Again Havemeyer, when Friend first approached him, offered him \$1,000,000 to let him see how the thing was done. When Freind refused to do so Havemeyer would have nothing more to do with him."

MRS. FRIEND'S SIDE OF IT.

Ann Annoa, Mich., Jan. 5.—Sawyer & Knowlton, attorneys of this place, have had several interviews during the past week with persons interested in the "Electric Sugar Refining" fraud of New York. FRAUD DENIED. Mrs. Friend's attorney denies all attempt at fraud, and says the Company s clausing

# SULLIVAN WILL GO.

He Says a Fight Shall Be Arranged at Toronto.

Or at Least It Won't Be His Fault

If There Isn't. Kilrain and His Party Expected to Be

Promptly on Hand.

The telegram received from Boston and printed in a morning paper, stating that John L. Sullivan had decided not to go to Toronto Monday to meet Jake Kilrain and his representatives on account of the arrangements for his benefit needing his personal atten-

tion, caused a surprise in this town to-day. If Sullivan had decided to remain in Boston, however, he changed his mind, for this morning Arthur T. Lumley received a telegram from him saying he would leave Boston for Toronto he would leave Boston for Toronto to-night and be on hand at the Rossin House Monday morning at 11 o'clock, the hour stipulated by the Kilrain party.

Jack Barnitt, Sullivan's trainer, will go to Toronto with John, and there they will be joined by Charley Johnson, of Brooklyn, Sullivan's backer, and a representative of the Idustrated News, who will leave this rity to morrow.

who will leave this city to morrow.

W. E. Harding, Richard K. Fox's sporting editor, is in Buffalo with Kilram and Mitchell, and these men will go to Toronto either

ell, and these men will go to Toronto either to-night or to-morrow morning.

The Sullivan party think Kilrain does business in a queer way, but they suppose they have either got to put up with it or let the great match fall through.

Sullivan no doubt would like to have had the date of meeting fixed a few days later than it is, to give him an opportunity to have his benefit arranged, but he has thrown everything aside and will attend to making the match.

everything aside and will attend to making the match.

Sullivan's sentiments are expressed in a letter received by Mr. Lumley this morning, in which he says he feels like a two-year-old and says it will not be his fault if the match is not made

In the same letter Sullivan says: I see by the papers that McAuliffe fared badly in his contest with Jackson. Jackson must be a good man, but he must not crow too loud, as he has not met a clever man yet in this country. I see he says in one of his interviews that the fighters who live on this side of the water do not punish. He might think differently one of these days.

BAD NEWS FOR SWEET VIOLET.

John Amory Codman Was Unduly Infla-enced by Fascinating Mrs. Kimball.

[SPECIAL TO THE EVENING WORLD.] Boston, Jan. 5. - The full bench of the Supreme Court this forenoon gave a decision affirming the decree of the single Justice.in the case of William S. Dexter, executor of the will of John Amory Codman vs. Martha

P. R. Codman et al. This is the celebrated Codman will case which has been pending so long before the courts, and which has been the subject of great public interest. Mr. Codman in his will leaving a great part of his large estate to Mrs. Eliza Ann Hales Kimball, the "Violet" of the smatory letters from Mr. Codman, which were made public in the case.

The executor anywesled first from a decree

The executor appealed first from a decree of Judge Holmes, who decided that Mrs. Codman had the right to appeal from the decree of the Probate Court allowing the will, and, secondly, to the decrees of Judge Charles Allen, who refused to set aside the verdict of the jury which found that the will verdict of the jury which found that the will of Codman was executed under undue in-fluence on the part of Mrs. Kimbali.

DEAD BARES IN A HAT-BOX.

Found Strangled and Carclessly Buried at

The police of the Seventeenth Precinct, Brooklyn, are busy investigating the discovery of the dead bodies of two male infants, apparently but a few days old, found in a pasteboard box, buried three feet in the ground in a desolate lot in East New York. Thomas and Adam Miller, who live in At-kin street, near the Western Parkway, were

out gunning yesterday, when their dog stopped short and began a vigorous digging and scratching in the ground.

He scratched to the depth of about a foot and brought to light a pasteboard box of the kind used in stores to pack ladies' hats in. The lid was partly off, and the forms of two very young babies were seen inside. The young men took the box and its contents to

ance. One of the little boys eyes was, how-ever, blackened as if by a blow. Both faces were very red and death seemed to have been caused by strangulation. The bodies had been in the ground but a short time.

TIMAYENIS ENJOINED.

He Must Not Interfere with the Mineren

Publishing Company. Justice Andrews, of the Supreme Court, o-day granted a temporary injunction, upon the application of Emma Dickson, restrainthe application of Limina Dicason, restraining Telemaque T. Timayenis, the Greek, from further interfering with the business of the Minerva Publishing Company or the assets of said business, and from collecting any moneys due the Company.
